

## Used machines | Injection moulding machines

### Demag ET 500/900-5200

**no. S-0184**

**Manufacturer:** Demag  
**Construction year:** 1999

#### Moulding unit

- clamp force: 5000 KN
- tie bar distance: 900 x 800 mm
- mould opening: 810 mm
- mould measurement: 400/880 mm

#### Injection unit

- shot volume weight PS 2835 cm<sup>3</sup>
- shot volume weight PS: 2550 gr (Polystyrol)
- screw diameter: 95 mm
- injection pressure: 1832 bar

#### Control unit

- NC 4

#### General

- electric current required: 117 KW
- measurements: 9,4 x 2,3 x 2,5 m
- overall weight: 27,0 t

#### running time:

- 25.000 (Std./hrs.)

#### Accessories/equipment

- 4-fold core pull
- socket-kombination
- printer
- 3 freely programable in/out put
- 2 pneum. valve
- ---
- PDE
- robot interface E12

Your all-in-one supplier for the plastic industry
