Demag ET 50-200 system

no. S-0245

Manufacturer: Demag
Construction year: 1993

Moulding unit

- clamp force: 500 KN
- tie bar distance: 355 x 355 mm
- mould opening: 400 mm
- mould measurement: 210 (610) mm

Injection unit

- shot volume weight PS 106 cm³
- shot volume weight PS: 94 gr (Polystyrol)
- screw diameter: 30 mm
- injection pressure: 1900 bar

Control unit

- NC 4

General

- electric current required: 23 KW
- measurements: 3,7 x 1,4 x 1,7 m
- overall weight: 3,3 t
- oil fill: 180 Liter/ltrs.

running time:

- 85.000 (Std./hrs.)

Accessories/equipment

- robot- interface
- QS- switch
- 8-Zone hotrunner

Description

reconditioned with functioning guarantee

Your all-in-one supplier for the plastic industry
